

# “Electronic Surveillance Operations”

**November 14 -18, 2016**

Regional Organized Crime Information Center  
545 Marriott Drive, Suite 850  
Nashville, TN 37214

This Technical Surveillance Operations Class, hosted by Tactical Technologies, Inc., and the Regional Organized Crime Information Center (ROCIC), is designed to educate attendees in the areas of electronics and surveillance operations. This includes hands-on practical exercises involving the use of audio and video equipment from different manufacturers. Attendees will become familiar with the most current technology used in the field today.

Participants are also encouraged to bring any of their own equipment on which they might need to be trained.

## Scheduled Training Topics

- Basic Electronics (Full Practice Course)
- The Proper use of audio recovery devices and the techniques to get the best possible performance from body wires, receivers and repeaters.
- Night Vision and Infrared Illumination
- Covert video transmission and recovery operations and techniques.
- Digital Technology in surveillance operations.
- Exposure to many of the latest hardware systems that are available to law enforcement.
